# Ski Glider

ALL YOUR SKI GEAR - FROM AIR TERMINAL TO THE SLOPES

The Ski Glider™ will revolutionise the way you travel with your ski gear.

Integrated legs with 360 castors support 100% of the weight of the of the Ski Glider, allowing you to manoeuvre all your kit with ease through airport terminals.

The retractable legs and folding mechanism mean that Ski Glider can be easily stored when not in use.

- Glides with ease through airports and stations
- Easy to manoeuvre even when fully laden
- Accommodate all your ski gear in one bag
- Enjoy your own equipment on the slopes
- Remove expensive airline luggage surcharges
- Remove cost of hiring expensive ski equipment
- No more queuing to hire or return equipment
- Hit the slopes as soon as you reach the resort
- Ski right up to departure from your resort

199cm BLACK	SKI-XL
179cm BLACK	SKI-B
179cm BLACK / SHADOW	SKI-BS
179cm BLACK / RED	SKI-BR

360° castor wheels and 'easy-glide' rear wheels give the Ski Glider fantastic manoeuvrability

Stabilising legs retract into the robust plastic base when not in use to save space

Si Glider can accommodate all your gear - Skis, boots, clothing, helmet etc.

ZANIER develops winter sports accessories in close cooperation with the consumer and with outstanding athletes. Their products have been developed and tested in the heart of the Dolomites.

### Zanier HEAT Technology for HEAT GTX and HOT GTX ski gloves

Zanier Heat Technology is based on advanced textile heating elements and a unique control system. The concealed robust Lithium Ion batteries that weigh just 60g provide heat at 3 different levels for up to 10 hours. The heating system is resistant to knocks and easy to operate with a single switch on the upper section of the hand. The flame-shaped LED lamp displays the selected level of heat (yellow, orange, red). The supplied charging unit charges the batteries up again overnight.

The finest quality materials are used in the manufacture of HEAT GTX and HOT GTX ski gloves: finest goats leather; soft, lightweight and warm ZA insulation and GORE-TEX membrane to keep hands dry

HEAT GTX and HOT GTX ski gloves

Protected by GORE-TEX and ZANIER 'LOFT'

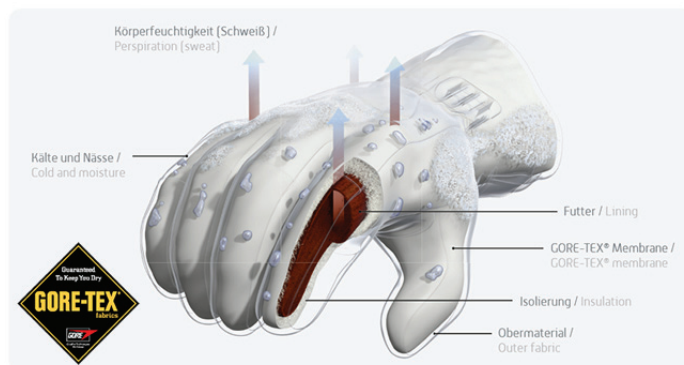

GORE-TEX membrane is the ideal solution for all kinds of winter sports.

Durable, waterproof, windproof and highly breathable.

Water remains on the outside of the glove whilst moisture can easily escape from the inside.

Hands stay warm and dry when its cold, and stay dry when you perspire.

ZANIER 'LOFT' is an extremely soft, warm and lightweight insulation material. The insulation offers similar characteristics to that of 'down' feather and is water-repellent as well as breathable.

### HEATM (mens) & HEATL (ladies) 'HEAT GTX' Heated Ski Glove

Shell : Goatskin, 4-way stretch

Palm: Goatskin

Sizes:

Mens: S,M,L,XL,XXL

Women: S,M,L,XL

### HOTL (ladies) 'HOT GTX' Heated Ski Mitten (with internal fingered glove)

Shell : Goatskin, 4-way stretch

Palm: Goatskin

Sizes:

Mens: S,M,L,XL,XXL

Women: S,M,L,XL

### HEAT / HOT GTX Features:

- Special reinforcement on the critical point between thumb and index finger
- Special protection on the edge of index fingers
- Optimum insulation or more warmth and differentiated multilayer liner for more comfort
- Pre-formed fingers for a better fit and inner hand leather reinforcement for increased durability

### Heating Levels:

The heating duration per charge depends on the selected heating level, the ambient temperature as well as the age and charging status of the batteries

OFF

1  
8-10 hours

2  
4-5 hours

3  
2-2.5 hours
