The Tin Cup system enables you to "Make Your Mark" with a personalized ball marker, using the design of your choice.
Tin Cup is an ideal gift for tournaments, corporate outings, birthdays, wedding parties, holidays and of course for personal use to simply play golf and have fun.
Tin Cup will make it easier than ever for you to identify and personalize your golf ball for those shots that happen to miss the fairway and end up in the rough or hazards.

- For best results use with Sharpie® fine line markers
- Made from high quality stainless steel
- Laser cut design

SUNDOG eyewear

GENUINE PERFORMANCE

At Sundog Eyewear, they are dedicated to maximizing your enjoyment of Golf by offering you world-class visual protection, performance and comfort on every shot – from Tee to Green and beyond.
While more golfers are protecting their skin from the harmful effects of exposure to the sun's rays, studies show that more than a quarter of the population does not wear sunglasses, despite the great benefit to eye health.

TrueBlue™ ULTIMATE EYE PROTECTION

A Lifetime of Ultimate Protection

TrueBlue™ lens is the only non-prescription sunglass lens in the world to incorporate both melanin and ocular lens pigment providing ultimate eye protection, vision performance and protection. Blue light is the cause of oxidation and deterioration of the macula over a lifetime, leaving our eyes susceptible to macular degeneration and other broader physiological damage.
Exclusive to TrueBlue, this technology in plano lenses provides the following benefits:

- **Superior Eye Protection**
- **Improved Contrast**
- **Excellent Colour Balance**
- **Reduced Both Glare and Veiled Glare**
- **Improved Visual Acuity**

Brown TrueBlue™ Lens Brown tint maintains colour balance, while improving depth perception and visual acuity.
A warmer, slightly brighter lens than grey.
A higher light transmission colour that improves contrast in diffused light conditions like one may experience on an overcast day or changeable weather conditions.

Smoke TrueBlue™ Lens - Grey is considered neutral as it preserves natural colors, sharpens focus.
Softens glare, and its slightly lower light transmission makes it a great bright light reduction choice.

- Stakes into the ground to eliminate the need for a practice net
- Ball material delivers durability and true feel of contact
- Upright adjustability for use with drivers, hybrids and irons
- Helps correct pushes, pulls, slices and hooks
- Gives immediate feedback on swing path
- Sets up quickly and easily
- Sturdy construction

SZLP - Launch Pad

- 1' x 2' hitting mat for all types of practice: 'tee', 'fairway' and 'rough' surfaces
- Practice driving, iron shots and short game
- Use anywhere you can safely swing a club
- Includes two tees for full range of clubs
- Extremely realistic grass surface

SZGP - Glide Pad

- Simulates the feel of making divots
- Includes Glide Pad and usage guide
- Holds standard tees firmly in place
- Practice with or without a tee
- Portable, fewer than 10 lbs
- 10" x 19" hitting surface
- Thick, durable turf

SZPW - Power Wedge

- 'Click' sound at the proper weight shift as the club passes through impact point
- Synchronises legs, hips and arms
- Use anywhere you can safely swing a club
- Produces better ball contact

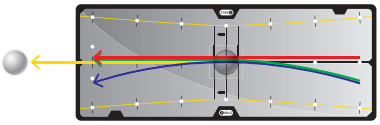

SZBFT - Ball-First Trainer

- 'J'-shape frames the ball-striking area to focus club-alignment
- Patented 'J'-shaped trainer to develop ball striking skills
- Rolls up easily and will fit into golf bag
- Improves precision and consistency
- Flips for LH or RH use

SZPM12 - 12 Inch Putting Mirror

- Arching and straight target putting path lines guide and train the optimal putting stroke
- Identify shoulder and head alignment faults
- Drilled holes to use tees on the practice green

SZSE - Slice Eliminator

- Sturdy construction, easy setup
- Fully adjustable for height and guide bar position
- Provides immediate feedback if swing is out-to-in (slice) or too in-to-out (hook)
- Also provides functionality to guide proper swing plane and help prevent swaying

Slice Eliminator has multiple set up positions

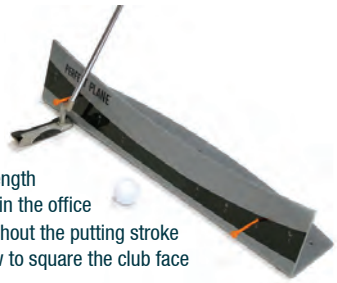

SZPPL - Perfect Plane

- Players can use their own putters
- Includes guides to even out stroke length
- Use on the practice green, home, or in the office
- Sets the club on proper plane throughout the putting stroke
- Teaches correct stroke path and how to square the club face

SZPP - Putt Pocket

- Fits standard golf hole
- Perfect target for practising at home or office
- Improve the accuracy of the line and speed on putts of all lengths
- 2.75 inch opening forces the player to make putts in the high side
- Small opening makes real holes appear larger once on the course

GOLF BAGS , CARTS & ACCESSORIES - 2017 RANGE

SUN MOUNTAIN 2017 RANGE

THE FEATURE-PACKED 2017 RANGE

At Brand Fusion we realise that retailers face a bewildering choice of golf bag styles and price points.
We believe the 2017 Sun Mountain range represents some of the best in value, design, specification, features and build quality today
Take a look at the bags below to see the variety of features which come as standard on many of the bags in the range.

ZERO GRAVITY TECHNOLOGY

Ergonomic hip belt massively reduces effort needed to carry your stand bag

Created to reduce the effort required to carry your clubs around the course, the 'Zero-G' hip belt transfers the majority of the weight of the bag from your shoulders to your hips.
The hip belt can be used on the majority of 2016 Sun Mountain stand bags and is seen as a fantastic innovation which will reduce strain on the back.

PRODUCT CODE : 17ZEROG-B (available in S or M/L)

ZERO

The 'Zero-G' hip belt is so effective that the bag can be supported without shoulder straps!

- Fits the majority of 2017 Sun Mountain bags
- Fits 30"- 50" hips, is easily adjusted and is held securely in place by a buckle closure
- The cushioned hip pad (on each bag) and Hip Belt provides excellent lumbar support
- Combine with the Auto-Fit Strap System to promote better posture & increased comfort

SUN MOUNTAIN - GOLF BAGS & CARTS

COMBO Cart

- The upright geometry of the bag creates an angle between the club heads and the handle, eliminating the annoyance of clubs hitting the handle or tray
- Fits into car boot as one compact unit, without separating the bag from the cart.
- The external "Space Frame" concept is incredibly strong, light and precise
- Built - in seat is comfortable and secure, providing a true sitting experience complete with back pad
- The seat also flips up to store flat against the bag in one easy motion
- Combo bag has 14 - way dividers

By integrating the bag and cart as one Combo unit, great savings in size and weight are achieved.

The materials used on the Combo bag body are chosen for durability and long life.

Should the golfer need to replace it after years of use or damage, it is possible to easily change the bag out of the frame.

Hedgehog fairway protectors are incredibly efficient at eliminating the damage which can be made to golf courses by standard trolley wheels, avoiding the need for clubs to introduce trolley bans.

Normal flat golf trolley wheels are generally banned over the winter period due to what is known as 'compaction and smearing'. The larger surface area of flat wheels compacts the ground and, because of a lack of grip, they also skid and cause damage - particularly where teeing areas and greens are exited.

brush(t)

The lightweight but sturdy Brush-t® is based on a unique nylon bristle "cup" that supports the golf ball.
The secret behind its success is the flexibility of the bristles which allow the ball to be struck with a minimum of resistance and deflection.
The Brush-t® bristles have been designed to do away with resistance from impact with the tee.

G-Rip

Feeling is believing

Introducing Seamless Optimized Technology - the great leap forward for current integrated joint polymer PU grips. Whilst others are striving to decrease the seams, G-Rip Feeltec has launched the evolutionary Seamless Optimized Technology.
Grip manufactures are striving to make the seams less and less - from wrapped to integrated "virtually seamless" PU grips.
G-rip grips have a proven tackier, and firmer feel, 3-times' stronger durability, reduced torque, enhanced performance, allowing more control and can be literally played in all weathers.

The advent of Seamless Optmized Techonology is a breakthrough in:
- Superior feel
- Slip resistance and traction advanced
- Stability and low-torque optimised
- Sweat absorbent and all weather use
- Strengthened durability and wear resistance
- Shock absorbancy upgraded

A-TAC SERIES GRIPS

The A-Tac range of swing grips are made from a proprietary Compound that has a feel all of its own, you really have to pick one up to see how different it is to a standard rubber grip.

The grips have a very tacky feel and if they get wet then dried with a towel, the compound becomes even tackier, thus helping you keep scoring even when its pouring!

Z-GRIP CORD

GRSC - Standard

GRMC - Mid Size

From the #1 Grip on Tour® comes the Z-Grip Cord, Golf Pride's firmest cord grip available.

Combining two layers of texturing for feedback and control, the Z-Grip features a deep "Z" shaped texture pattern that winds vertically around the grip for control, while a heavy cord texture throughout provides moisture management.

GRSS - Z-GRIP PATRIOT

The new Patriot® grip from Golf Pride® is designed with a uniquely textured surface pattern that includes strategically placed black pebbled bands. These bands, along with a supple tri-colored rubber construction, provide exceptional traction for added playability.
The Patriot is designed for players of all skill levels and has the durability you expect from Golf Pride.

LTTS - TOUR 25

Introducing the Tour 25, Golf Pride's lightest rubber swing grip.
At only 25 grams, this lightweight model is the perfect replacement grip for drivers and fairway woods that use a light grip as a component.
Installed on a standard weighted club, it increases swing weight 4-5 points.

VTM360 - TOUR VELVET 360

New from Golf Pride, the Tour Velvet 360 is designed for adjustable drivers, fairway woods, and hybrid clubs.
It features the popular look and feel of the Tour Velvet non-slip surface pattern in a 360 degree design.
This grip features double-dash rings on both ends that allow for a consistent appearance regardless of shaft orientation or adjustments.

GRIPS - GOLF PRIDE

LAMKIN GOLF GRIPS

Since 1925, Lamkin has been producing premium golf grips specifically designed to support the shared pursuit of millions of golfers: achieving a lower score and a better game.
Lamkin is a company founded and led by avid golfers who have been personally and professionally committed to the goal of game improvement for more than 85 years.

Z5

The new Z5 fro Lamkin features five distinctive grip zones scientifically engineered to promote proper hand placement and the ideal light-pressure grip with every swing. The grip's multi-compound foundation is combined with a functional network of textures and patterns to deliver enhanced grip comfort, control and consistency.

- Intricate pattern & cotton cord weave in upper zones
- 'Finger lock' panels in the middle sections of the grip
- Micro texture lower half provides comfort for gloveless hand
- Functional alignment references

SINK PUTTER

FUNCTIONAL SURFACE DESIGN & TEXTURE
Precisely designed patterns provides golfers with an effective hand position reference which promotes improved putting consistency and confidence.

MULTIPLE GRIP TEXTURES
The three distinctive textures offer an ideal surface which feels comfortable and secure in all moisture conditions.

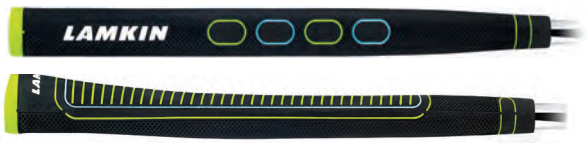

SUPER LIGHTWEIGHT RUBBER COMPOUND
For decades, golfers have preferred the responsive feel, all-weather playability and durability of rubber grips. The new lightweight rubber featured in SINK putter grips delivers the proven performance benefits of traditional rubber whilst maintaining optimal putter grip weight.

ERGONOMIC CURVED HANDLE PROFILE
The pronounced pistol profile ensures the upper hand is positioned in a more relaxed and stress-reducing angle. With this alignment, the wrists are stabilised and movement is inhibited, allowing for a more fluid and consistent stroke guided by the upper arms & shoulders.

LAMTECOP - TECHNIQUE PUTTER

Discover a better short game with Lamkin's revolutionary new putter grip featuring functional hand alignment guides and an oversized, flat-front shape.

- Distinctive alignment guides help to promote consistent hand placement for 3 common putting styles: Reverse Overlap ; Cross-Handed & Claw
- Larger size helps reduce unnecessary wrist action
- Textured pattern provides slip-resistant grip control

LAMDEP DEEP ETCHED PADDLE

The deep, horizontal etched pattern on this large paddle profile grip provides a firm feel for a solid stroke.

• 77g

LAMJP JUMBO PUTTER

This extra-large putter grip minimises hand pressure and eases forearm stress, allowing for an extra-smooth putting stroke.

• 112g

LAMUTXP UTX MEGA PADDLE PUTTER

The larger, paddle shape combined with Tri-layer technology creates a responsive and comfortable grip.

LAM02 CROSSLINE PADDLE

One of the most preferred putter grips on tour, the combination of the unique paddle profile and Crossline pattern give the Crossline Paddle its distinctive look and feel.

• 70g

LAM11 ARTHRITIC GRIP

Its 'nubbed' texture and slightly larger size reduce hand pressure and help minimise the effort arthritic golfers exert to hold the club.

TRAINING GRIPS

To help golfers improve their shot-making abilities we offer a selection of Training grips.
Each is designed to teach players the proper hand and finger positioning for the ideal golf swing.
Training grips are an excellent training tool and not approved for tournament use.
